Snuko™ – Anti-Theft software

In a day and age where technology is advancing at a rapid rate and mobile devices are so prevalent, laptop theft and identity theft are on the rise.

It is now more important than ever to protect yourself from the loss of data and hardware.

The Snuko™ proprietary software specializes in combating computer theft by providing laptop security through protecting data loss, laptop tracking, locating and retrieving of the computer or mobile device.

Snuko™ the best in laptop security solutions

In the event that a computer is reported lost or stolen, Snuko™ will remotely take a picture of the unauthorized user*, locate the lost/stolen computer up to 10 meters, automatically encrypt vital information on the computer, back up your most important files, shut down the computer so it can no longer can be used and inform the unauthorized user that law enforcement will be notified.

Recover your most important files at your own pace, while Snuko™ helps you retrieve your computer.

Snuko™ Anti-Theft Software,
a necessity
if you have a computer!
